

Laura Duberstein Lindberg

The Guttmacher Institute · 125 Maiden Lane · New York, NY 10038
(212) 248-1111 · LLindberg@guttmacher.org

EDUCATION

University of Michigan, Ann Arbor, Michigan

Ph.D., Sociology, 1993 Area of Specialization: Demography

University of Michigan, Ann Arbor, Michigan

M.A., Sociology, 1990 15 credit hours in Statistics and Research Design

Princeton University, Princeton, New Jersey

Bachelor of Arts, *Cum Laude*, Woodrow Wilson School of Public and International Affairs, 1988

PROFESSIONAL EXPERIENCE

The Guttmacher Institute, New York, New York

Principal Research Scientist 2015-present

Senior Research Associate, 2004-2014

Columbia University, Mailman School of Public Health, New York, New York

Senior Lecturer, Heilbrunn Department of Population and Family Health, 2007-present

Abt Associates, Bethesda, Maryland

Senior Research Consultant, Center for Education and Family Services, 2001-2003

The Urban Institute, Washington, DC

Senior Research Associate, Population Studies Center, 2000-2001

Research Associate I, Population Studies Center, 1995-1999

University of Chicago, Chicago, Illinois

NICHHD Postdoctoral Fellow, Population Research Center, 1993-1995

AREAS OF SPECIALIZATION

Sexual Behavior; Family Planning Services; Sexual and Reproductive Health; Adolescent Health; Fertility and Family Formation Behaviors; Survey Design and Measurement

PEER-REVIEWED PUBLICATIONS

RESEARCH GRANTS

1. FPRPA006017

09/30/04-09/29/09

Family Planning Needs and Services in the United States
Office of Population Affairs, HHS

The objective of this project is to document, through multiple activities, the need for family planning and other reproductive health services in the United States and the adequacy of services to meet those needs. Responsible for planning and carrying out data analysis; supervises mid-level and junior staff.

Role: Co-Investigator

2. Assessing Reproductive & Contraceptive Knowledge and Beliefs Among Unmarried Young Adult

National Campaign to Prevent Teen and Unplanned Pregnancy

05/01/06-06/30/09

The objective of this project is to conduct a nationally representative telephone survey of unmarried young adults in order to gather information about knowledge and attitudes about contraception.

Role: Co-Investigator

3. Pregnancy Risk Index

01/01/07-09/30/08

Columbia University, Heilbrunn Department of Population and Family Health

The objective of this project is to adapt and validate the Contraceptive Risk and Pregnancy Risk indices to understand contraceptive use and pregnancy risk for teen and adult women over dimensions of time, age, region, and race and ethnicity.

Role: Co-Investigator

4. 5 FPRPA006026-01-00

09/30/07-09/29/10

Couples Based Family Planning Services

This project aims to improve contraceptive use and reduce unintended pregnancy among clients of publicly subsidized Title X family planning clinics in the United States by surveying 2500 women and 125 men about their experiences and preferences concerning couples family planning.

Role: Principal Investigator

5. 1 R01HD059896-01-A1

07/1/09-06/30/14

Measuring and Explaining Unintended Pregnancy in the United States, 1987- 2009

National Institutes of Health

The goal of this project is to calculate updated estimates of unintended pregnancy for the nation and for demographic subgroups; decompose those rates to determine the drivers of unintended pregnancy; develop new tools that enable more frequent calculation of these rates; and make new estimates of contraceptive failure rates overall and by subgroup.

Role: Co-Investigator

6. 1 FPRPA006050

09/01/09-08/31/14

Meeting 21st Century Family Planning Challenges with an Evidence-Based Approach, 2009-2014

Office of Population Affairs, HHS

The objective of this project is to document, through multiple activities, the need for family planning and other reproductive health services in the United States and the adequacy of services to meet those needs. Populations of special focus are lower-income women and adolescents.

Role: Co-Investigator

7. Health Behaviors of Women in the Military

09/01/09-12/31/10

The Wallace Alexander Gerbode Foundation

This project conducted analyses on the access to family planning services and the abortion ban for service personnel.

Role: Principal Investigator

8. Adolescent Pregnancy

09/01/09-08/31/11

Annie E. Casey Foundation

To generate updated teen pregnancy estimates, document findings, and disseminate messages through several channels.

Role: Principal Investigator

9. Adolescent Pregnancy Analysis

01/01/10-12/31/12

California Wellness Foundation

The objective of this project is to develop and disseminate new teen pregnancy estimates at the state and national level.

Role: Co-Investigator

10. 1 R01HD068433-02

09/01/11-08/31/15

Advancing Research on the Consequences of Unintended Childbearing

National Institutes of Health

To improve the health and well-being of American families by identifying and clarifying the consequences of unintended childbearing, specifically focusing on the ways in which the intention status of a birth affects women's and men's behaviors during and after pregnancy, as well as the health and well-being of infants and children. We will construct a new and more comprehensive measure of intention status, and employ innovative statistical techniques to provide the most rigorous test to date of the hypothesis that unintended births face a higher risk of negative outcomes than intended ones.

Role: Co-Investigator

11. New Estimates of Pregnancy Intentions

09/01/11-08/31/12

National Campaign to Prevent Teen and Unplanned Pregnancy

The project produced an empirical analysis of detailed pregnancy intention measures from the 2006-10 National Survey of Family Growth (NSFG) and supplemented by data from the Institute's abortion surveys in order to account for underreporting of abortion in the NSFG.

Role: Principal Investigator

12. Teen Pregnancy 2012 10/01/11-09/30/14
 Anonymous Donor
 The purpose of this project is to update teen pregnancy, birth and abortion statistics from 2006 with data from 2008. State level data on abortions by age, race and Hispanic ethnicity will be obtained directly from the states.
 Role: Principal Investigator
13. An Evidence Base for Action: Tracking the State of the Nation's Reproductive Health 10/01/11-09/30/14
 Anonymous Donor
 The project provided support for a package of activities designed to comprehensively track the state of the nation's reproductive health, including the Institute's flagship research efforts documenting levels of abortion, unintended pregnancy, and teen pregnancy (nationally and for each state), as well as tracking of reproductive health laws and policies at the state level.
 Role: Co-Investigator
14. Identifying Pathways to Improve Contraceptive Use: A Longitudinal Study 03/01/12-02/28/15
 JPB Foundation
 This project collects longitudinal panel data from a national sample of U.S. women in order to examine the dynamics and relationship contexts of consistent and inconsistent contraceptive use.
 Role: Co-Investigator
15. 1 R24HD074034-01A1 09/14/13-08/31/18
 Guttmacher Center for Population Research Innovation and Dissemination
 National Institutes of Health
 A NICHD Specialized Research Infrastructure Grant to support the Guttmacher Center for Population Research Innovation and Dissemination. The Center seeks to expand the contribution of Guttmacher's existing program of population science research by enhancing its capacity to effectively disseminate science, maximizing Center scientists' and affiliates' productivity, strengthening partnerships with other institutions, and building the skills of senior and junior researchers. The signature research theme of the Center is fertility and reproductive health.
 Role: Co-Investigator
16. US Surveillance: Unintended Pregnancy at the State Level, 2013 and 2016 10/15/13-03/31/17
 Anonymous Donor
 This study calculates statistics on unintended pregnancies, births and abortions for residents of each state using data from vital statistics, the Pregnancy Risk Assessment Monitoring System surveys (PRAMS), the Guttmacher Institute's Abortion Patient Survey and Abortion Provider Census, the CDC annual abortion surveillance publications, and information collected from individual abortion providers and state health departments.
 Role: Co-Investigator
17. US Surveillance: National and State Estimates of Teen Pregnancy 10/15/13-03/31/17
 Anonymous Donor
 This study provides national and state-specific statistics on unintended pregnancies, births and abortions for all teens (<15, 15-17, 18-19) and young women (20-24). Estimates for 2011, 2013, 2014 and 2016 will be released as data become available.
 Role: Co-Investigator
18. Cross-sectional Survey on Contraceptive Coverage 03/01/15-04/30/16
 JPB Foundation
 To continue efforts to track the impact of the Affordable Care Act (ACA) on contraceptive coverage, cost and method use, by carrying out a new cross-sectional survey of women to obtain information on their source of insurance coverage, contraceptive method use and cost-sharing, and analysis of a Bayer Pharmaceuticals dataset looking at changes in what health plans are requiring women to pay out-of-pocket for IUDs. The grant will also support an analysis of the impact of changes in contraceptive use on the decline in teen pregnancy.
 Role: Principal Investigator

19. Confidentiality concerns, socioeconomic status and adolescents' 08/01/16-09/31/19
JPB Foundation

To examine how concerns about confidentiality influence adolescents' and young adult's use of and experiences with health services and how this varies by individual and family characteristics, as well as the type of health care provider. This study will analyze new question items in the 2013-2015 National Survey of Family Growth (NSFG).

Role: Principal Investigator

20. Two Americas for Teens 08/01/16-09/31/19
JPB Foundation

To analyze how socioeconomic disadvantage at the individual and community-level affects SRH indicators for adolescents in the United States.

Role: Principal Investigator

21. 1 R01HD084473-01A1 9/1/2016-6/30/2016
Advancing Measurement and Analysis of Sensitive Behaviors in the United States
National Institute of Health

This project will investigate levels and correlates of women's abortion underreporting in three widely-used nationally representative surveys, and develop, test and evaluate new methodologies to improve abortion reporting, with findings relevant to improvements in the measurement of other sensitive behaviors.
